Structure and pattern of Revenue Expenditure according to economic classification are presented in Table b and Chart b (presented in the next page). Following conclusions can be drawn on the basis of them:

- Until October FY 08, maximum utilization of Revenue Expenditure as % of B08, has been carried out under two heads: Interest Payments (42.4%) and Pay and Allowances (29.6%). Subsidies and Current Transfers come thereafter with 26.3%.
- During the last Fiscal Year (A07), Domestic Interest Payments (19.1%) was 5.97 times larger than that of Foreign Interest Payment (3.2%).

- Up to October FY08, the following economic categories show an utilization rate more than 30.0 %: Subsidies (39.6%), Pay of Officers (30.8%), and Domestic Interest Payments (44.2%).

Data generated under the Budgeting Information System still underreports development expenditure and it seems there is some time lag between actual expenditure and inputting the same in the System. This seems to be true both for Revenue expenditure and Development expenditure.

The major problematic areas are:

- Regarding expenditures up to October FY08, 15 (fifteen) ministries/divisions show a utilization of revenue resources more than 30%.
- Overall development expenditure remains unreported. There is also a probability that development expenditure remains under-utilized up to the first half of the year resulting misutilization towards the end of the FY. This needs to be addressed.
