# About iBAS<sup>++</sup>

Integrated Budget and Accounting System (iBAS<sup>++</sup>) is the Integrated Financial Management Information System (IFMIS) of the Government of Bangladesh (GoB). iBAS<sup>++</sup> has been a core component of financial reforms to promote real time transaction, transparency and comprehensiveness in financial reporting. It captures all financial transactions of GoB including receipts and payments and ensures better resource availability to enable service delivery. Application of EFT process in iBAS<sup>++</sup> ensures quick delivery of services to the clients-government employees, vendors, suppliers and social safety net recipients etc.

The system, as of now, has as many as eight modules which support PFM functions like budget preparation, budget management, expenditure and payment management, accounting and fiscal reporting and so on. It can generate more than 400 reports which helps in monitoring, decision making, accounting and auditing. iBAS<sup>++</sup> has been interfaced with a number of GoB systems, including Central Bank Core Banking System, Electronic Government Procurement (eGP) system, Tax Identification Number (TIN) database, NID database and ADP/RADP Management System of planning commission which ensures faster and transparent delivery of services through quick exchange of information.

## Features of iBAS<sup>++</sup>

Centralized, internet based system

Developed by local experts

General Ledger based fiscal reporting

Effective budgetary control

Online pay bill submission

Automated financial transaction

Transaction in real time

Automated reconciliation among MDAs, CGA and Commercial Banks

Actual balance of receipt and payment at day end

## Beneficiaries of iBAS<sup>++</sup>
