**1.0 Mission Statement and Major Functions****1.1 Mission Statement**

Mitigate the risks of the people, especially the poor and vulnerable, during disasters by strengthening the overall capacity of disaster management and establish an efficient and capable emergency disaster response system to face disasters.

**1.2 Major Functions**

- 1.2.1 Formulation, review and execution of legislation, policies, plans, procedures, standing orders and guidelines related to disaster risk reduction, emergency response and disaster management;
- 1.2.2 Formulation and implementation of plan and policies related to distribution of emergency humanitarian assistance and rehabilitation as well as maintenance of database of social safety net programs' recipients;
- 1.2.3 Formulation of plans, undertaking training and research related to disaster risk reduction programs along with coordination, monitoring and evaluation of the activities of the different local, regional and international development partners;
- 1.2.4 Providing humanitarian assistance to ensure food security through formulation and implementation of different programmes like renovation of rural infrastructure (Food for work), maintenance of rural infrastructure (Test Relief), VGF, GR and such other programmes;
- 1.2.5 Employment generation for the ultra poor to reduce risk specially during the lean periods of the year through EGPP;
- 1.2.6 Maintaining coordination for the utilization and distribution of food and other emergency humanitarian assistance received from overseas agencies;
- 1.2.7 Implementation of refugee related activities and co ordinate with national and international organizations;
- 1.2.8 Construction and maintenance of small bridge/culvert, multipurpose cyclone/flood shelters, Mujib Killa, Information centre cum relief godown and construction of Herring Bone Bond roads at rural areas aiming at reducing disaster risk;

## 2.0 Medium Term Strategic Objectives and Activities

| Medium-Term Strategic Objectives  | Activities   | Implementing Departments/Agencies   |
|---|--|---|
| 1   | 2  | 3   |
| 1. Institutionalising disaster management system  | <ul style="list-style-type: none"> <li>• Imparting training on disaster management to all concerned people in disaster prone areas</li> <li>• Providing training to the disaster management volunteers</li> </ul>  | <ul style="list-style-type: none"> <li>• Secretariat</li> </ul>                       |
|   | <ul style="list-style-type: none"> <li>• Strengthening comprehensive disaster risk management framework of the Government through Disaster Risk Management Enhancement Project</li> <li>• Procurement, maintenance and distribution of rescue vehicles and equipments to respond to disasters</li> <li>• Providing training to all concerned in the disaster prone areas</li> </ul>  | <ul style="list-style-type: none"> <li>• Department of Disaster Management</li> </ul> |
| 2. Construction and renovation of infrastructure aimed at disaster risks reduction                    | <ul style="list-style-type: none"> <li>• Construction of small and medium bridges and culverts for rapid discharge of water</li> <li>• Construction and maintenance of multi-purpose cyclone shelters in coastal areas</li> <li>• Construction and maintenance of multi-purpose flood shelters in flood prone/river erosion areas</li> <li>• Construction of cyclone resistant houses, raising the grounds of social institutions</li> <li>• Construction of <i>MujibKillas</i></li> <li>• <i>Construction of Herring bone bond roads in rural areas</i></li> <li>• <i>Construction of go-down in each district and relief go-down-cum-Information center in each upazilla of the country</i></li> </ul> | <ul style="list-style-type: none"> <li>• Department of Disaster Management</li> </ul> |
| 3. Alleviation of plight and risk reduction of vulnerable and distressed populations during disasters | <ul style="list-style-type: none"> <li>• Adoption of adaptation activities to reduce risks due to climate change</li> <li>• Strengthening comprehensive disaster risk management framework of the Government through National Resilience Program</li> <li>• Employment generation for the ultra-poor, especially poor destitute women, in identified disaster prone areas</li> <li>• Identification of internal risks and reducing loss of lives and properties through early warning</li> </ul>   | <ul style="list-style-type: none"> <li>• Secretariat</li> </ul>                       |
|   | <ul style="list-style-type: none"> <li>• Implementation of Rural Infrastructure Development Programme and Rural Infrastructure Maintenance Programme</li> <li>• Implementation of Test Relief (TR) Programme</li> </ul>  | <ul style="list-style-type: none"> <li>• Department of Disaster Management</li> </ul> |

| Medium-Term Strategic Objectives | Activities   | Implementing Departments/Agencies |
|----------------------------------|--|-----------------------------------|
| 1                                | 2  | 3                                 |
|                                  | <ul style="list-style-type: none"> <li>• Implementation of Vulnerable Group Feeding (VGF) Programme</li> <li>• Distribution of GR (Food and Cash), Blankets, CI Sheets etc. and House Building Grants for the extreme poor.</li> </ul> |                                   |

### 3.0 Poverty, Gender and Climate Change Reporting

#### 3.1 Impact of Medium Term Strategic Objectives on Poverty Reduction, Women's Advancement and Climate Change

##### 3.1.1 Institutionalising disaster management system, ensuring professionalism competence and capacity

**Impact on Poverty Reduction:** Disaster risks have been mitigated through early warning signals, necessary training and increasing public awareness activities, strengthening of volunteer forces and implementation of Disaster Risk Reduction programmes. The capacity of the poor to face disasters is also improved through increased partnerships and coordination among various ministries, agencies and development partners. Community empowerment, capacity building, response management are strengthened to reduce the loss of lives and properties caused by natural disasters. Socio-economic security of the poor people is strengthening, creating positive impact on poverty alleviation.

**Impact on Women's Advancement:** With the involvement of women in the awareness building activities and providing training on their lives and livelihoods in disaster prone area, their capability are increasing to face natural disaster and consequently poverty and disaster risk are reducing.

**Impact on Climate Change Adaptation and Mitigation:** Lives, livelihoods and assets can be saved from disaster shocks in climate affected areas by providing training on disaster management to members of disaster management committees and volunteers at different levels. Other than that, adaptive capacity and capacity to mitigate climate change risks will be enhanced through procurement, distribution, and maintenance of search and rescue vehicles and equipments, and strengthening integrated disaster risk management process.

##### 3.1.2 Construction, extension and up-gradation of infrastructure to reduce disaster risks

**Impact on Poverty Reduction:** With the construction of flood/cyclone centres in disaster prone areas, poor people take shelter in these centres with their belongings. Through the construction of disaster resistant houses and *MujibKillas*, people are protecting their assets by transferring their livestock to these places. Their crops are being saved due to discharge of water through bridges/culverts. As a result, poverty is being reducing.

**Impact on Women's Advancement:** An effective transport system plays a positive role in rescuing people, especially women and children during disasters. The lives of women and children are also saved by moving to cyclone/flood shelters during floods and cyclones. The overall benefits of communication and transport system accelerate women's advancement.

**Impact on Climate Change Adaptation and Mitigation:** Construction of bridges and culverts in the disaster prone areas will enhance faster discharge of waters due to floods and storm surges and by these the adverse effect of climate change can be reduced. Construction and maintenance of multipurpose cyclone shelters, constructing cyclone resilient housing, raising the height of the premises of the social institutions and building *MujibKillas* etc. will help increase the adaptive capacity of people to disaster shocks.

##### 3.1.3 Reducing the sufferings and disaster risks of the poor and vulnerable people and people in danger

**Impact on Poverty Reduction:** The poverty of a minimum of 65-70 lakh people is being reduced every year through implementation of Employment Generation Programme for the Poorest (EGPP), Test Relief

(TR) Programme and Food for Work (FFW) Programme and other programmes during agricultural slack seasons and in disaster prone areas. Similarly, by getting instant food relief under VGF programme to face immediate disaster shocks, the sufferings of 25 lakh poor people are eased every year. In addition, distributions of disaster reliefs immediately after the shocks such as GR (Food and Cash), Sarees, Lungis, Blankets, CI Sheets, and House Building Grants etc. help the affected people to overcome losses and sufferings.

**Impact on Women's Advancement:** As at least 30 percent of the beneficiaries are women under targeted and women friendly programmes the poor and destitute women are getting preference in employment, increased income and easy access to food. Women, children and disabled people are shifted to safe shelters on a priority basis at the beginning of any great disaster and they are given food and medicines. As a result, their social security and capacity to face disasters have been strengthened.

**Impact on Climate Change Adaptation and Mitigation:** In disaster prone areas creating employment through EGPP specially for poor and destitute women; implementing the social safety net programmes like TR and VGF; distribution of GR food, GR cash, blanket, sharees, lungis, corrugated sheet, house grant can enhance climate change adaptability of poor people and reduce the adverse impact of climate change on them. Besides, loss of lives and wealth could be reduced by identifying the risk of climate change and early warning system

### 3.2 Poverty Reduction, Women's Advancement and Climate Change Related Spending

(Taka in Thousand)

| Description       | Budget<br>2024-25 | Projection  |             |
|-------------------|-------------------|-------------|-------------|
|                   |                   | 2025-26     | 2026-27     |
| Poverty Reduction | 9799,40,22        | 10580,84,77 | 10936,72,19 |
| Gender            | 4276,26,64        | 4587,05,83  | 5036,58,48  |
| Climate Change    | 2547,03,00        | 2801,73,30  | 3081,90,63  |

#### 4.1 Priority Spending Areas/Programmes

| Priority Spending Areas/Programmes  | Related Strategic Objectives  |
|---|---|
| <p><b>1. Expansion of social safety net programmes</b><br/>Employment Generation Programme for the Poorest during lean periods, Rural Infrastructure Development (Kabikha/Kabita), Rural Infrastructure Maintenance(TR),VGF and other humanitarian assistance programmes to reduce vulnerability of poor people and play an important role in employment generation and ensure food safety for the poor during disaster and after disaster. Considering all these, this area has been given the first priority.</p>   | <ul style="list-style-type: none"> <li>Reducing the sufferings and disaster risk of vulnerable people and people in danger</li> </ul> |
| <p><b>2. Ensuring food security and Disaster Risk Reduction through construction of small/medium bridges/culverts, Herring Bone Bond roads, MujibKillas and flood/ cyclone shelters</b><br/>During disasters, the protection of human lives and properties is one of the prime responsibilities of this Ministry. Therefore, construction and maintenance of cyclone/flood shelters for emergency human shelters; small/medium bridges/culverts and Herring Bone Bond Roads for uninterrupted communication; MujibKillas for human/animal shelter and go-down-cum-Information centers for ensuring food security are considered second in the list of priority areas.</p> | <ul style="list-style-type: none"> <li>Construction and renovation of infrastructure for disaster risk reduction</li> </ul>           |
| <p><b>3. Reinforcing urban resilience and Disaster Risk Management through procurement and maintenance of search and rescue vehicles and equipment</b><br/>Search and rescue vehicles and equipments play an important role in saving lives and properties of disaster affected people. Therefore, this</p>   | <p>Institutionalizing disaster management system</p>  |

| Priority Spending Areas/Programmes   | Related Strategic Objectives                  |
|--|---|
| is given the third priority.   |   |
| <p><b>4. Risk reduction training, research and awareness programme</b></p> <p>In order to reduce the impact of global climate change, there is no alternative to update the overall Disaster Risk Management programmes and to undertake training, research and public awareness activities to conduct, monitor and evaluate adaptation initiatives. This has been therefore, given priority</p> | Institutionalizing disaster management system |

#### 4.2 Medium Term Expenditure Estimates and Projection (2024-25 to 2026-27)

##### 4.2.1 Expenditure by Department/Agencies/Institutional Units

## 6.0 Recent Achievements, Activities, Output Indicators and Targets and Expenditure Estimates of the Departments/Agencies

### 6.1 Secretariat

**6.1.1 Recent Achievements:** The Cyclone Preparedness Program (CPP) under the Ministry of Disaster Management and Relief has received the prestigious 'United Nations Public Service Medal-2021' in recognition of the women's empowerment initiative. Over the past four years, nearly 1.1 million forcibly displaced Myanmar citizens have been provided with food and shelter and other humanitarian assistance. The government is also spending a lot of money on the construction of the shelter, development of the camp area in Bhasanchar, Noakhali for the displaced Myanmar nationals and providing administrative services including law and order in the camp. DREE (Disaster Response Exercise & Exchange-2022) has been successfully organized with the participation of representatives of various countries including the United States as a joint initiative of the Armed Forces Department and this Ministry. By dialing the toll-free number 1090 on the mobile phone through IVR technology, a system has been adopted to inform the updated disaster forecast and weather message. Under the Program for the Extreme Poor, measures have been taken to ensure eighty days of employment in two phases for about 27.25 lakh destitute rural unemployed workers in the last three years, one third of beneficiaries are women. 20 Multipurpose Accessible Rescue Boats have been supplied to different districts prepared by Bangladesh Navy for rescuing disabled persons, women, children, elderly people and their belongings and moving them to a safe place.
