In addition, approximately 4,31,400 young women will be transformed as skilled human resources through training on housekeeping, tailoring, rearing of livestock, nursery, boutique and printing, crafts of bamboo and cane, poultry, embroidered blanket etc. over the medium term. This will empower women and reduce poverty.

3.1.2 Promotion and development of the standards of sports

Impact on Poverty Reduction: From fiscal year 2019-20 to 2021-22, around 63,440 young sporting talents will be identified from the grass roots level. They will be provided with modern training of varying length to transform them as quality players. 4.1 Priority Spending Areas/Schemes

	Priority Spending Areas/Schemes	Related Medium Term Strategic Objectives
1.	Training for unemployed youth, provision of credit and creating employment	Building skilled and productive youth community
	Youth is the power. There is no alternative of training to transform youth force into skilled human resources. One of the main objectives of National Youth Policy is to create employment opportunities and develop entrepreneurship skills of youth by providing appropriate skill development training. Trained youth can be self-employed by easy accessibility to credit facility. This has, therefore, been given the highest

	priority area.	
2.	National Service Scheme National Service Scheme has been taken up to create temporary employment for unemployed youth (men & women) aged between 24 to 35 years having education up to HSC or higher levels. They will be temporarily engaged in various nation building activities for two years after three-month basic training on 10 modules. Under this scheme, a total of 1,68,772 youths have been targeted in 164 upazilas in the fiscal years 2017-18 to 2021-22. Therefore, this scheme has been given the second highest priority area.	Building skilled and productive youth community
3.	Arrange age-based training and provide financial assistance for underprivileged sportspersons After identification of sports persons of different age-group across the country including schools and colleges, training of different lengths depending on their talents will be given to make them as skilled and quality sports persons. These sports persons bring honour to the country by applying their skills. However, some of them suffer from	Promotion and development of the standards of sports
	financial stress at the later stage of their lives. If the future of the sports persons is well protected social security will be strengthened. Through sports empowerment, development of mental health, reduction of inequality and social inclusion will be ensured. This area has, therefore, been identified as the third highest priority area.	
4.	Arrange/participate in the sports competition at local, national and international levels Different sports competitions provide opportunities to a sports person to prove his/her skill. Organizing sports competitions is also necessary to preserve the tradition of the rural sports. Besides, these competitions also improve the standard of the players as they compete with the high quality sports persons in the same platform. Moreover, organising international sports event helps to raise the image of the country in the international arena. Therefore, this area has been identified as the fourth highest priority area.	Promotion and development of the standards of sports
5.	Development of physical infrastructure for youth & sports The number of youth training centres, stadiums, play grounds and other infrastructure facilities are inadequate compared to the requirement. Even the conditions of the infrastructures are not satisfactory due to lack of proper maintenance. So, development of training centres and sports related infrastructure has been identified as a priority area.
