| | Construction and maintenance of religious institutions | District Council, KhagrachariDistrict Council, Bandarban |
| | Establishment and development of social welfare institutions | District Council, Bandarban |

3.0 Poverty, Gender and Climate Change Reporting

3.1 Impact of Medium Term Strategic Objectives on Poverty Reduction, Women's Advancement and Climate Change

3.1.1 Improve quality of life for people of CHT Region

Impact on Poverty Reduction: Installation of tube-wells in the remote hill tracts areas, ensuring supply of drinking water in municipal areas, providing healthcare services and creating awareness about environment and hygiene expanding the economic activities of the poor. Literacy rate and the number of skilled workforces are increasing as a result of numerous initiatives such as child healthcare services, free distribution of educational materials including books, vaccination and delivering appropriate services to the malnourished children in the CHT region. Establishing communications and power infrastructure, implementing micro-credit programmes and constructing infrastructure to facilitate marketing of agricultural products has contributed to the increase in income of the people of this region. This has a direct impact on poverty alleviation.

Impact on Women's Advancement: Due to providing health services through Mobile Clinic and supplying pure drinking water in the remote hilly areas, time and labour of women has lessened. Child mortality rate has decreased due to healthcare services provided to child and mother. In addition, dropout rates for female students are decreasing as a result of increasing opportunities for female children. This in turn, ensured the participation of women in higher education. At the same time, participation of women in the labour market and income generating activities have grown significantly due to infrastructural development in this region. Through the Micro-credit programme, target based loans were provided to women (40%) which resulted in increased self-employment opportunities and enhanced empowerment for women. Various programmes on technical education and vocational trainings were arranged which was also target based (50%). This programme has created more employment for women which in turn is augmenting their individual income.

Impact on Climate Change: Due to climate change, there is abnormal rainfall and mountainous collapse took place in the CHT areas in recent times. As a result, there is a huge loss of infrastructural facilities including life and property. On the other hand, during the dry season, irrigation activities and supply of drinking water were hampered. In this context, development schemes have been taken focusing on climate resilience agriculture and rural infrastructural improvement which would play positive impact on climate change.

3.1.2 Safeguarding the language and culture of different tribes of the people of CHTs

Impact on Poverty Reduction: Primary school text-books were published in 11different tribal languages. As a result, the number of Bangalee/ethnic children receiving primary education has increased. In addition, ethnic people's income is increasing due to marketing ethnic products and inputs used by them.

Impact on Women's Advancement: Educational opportunities of ethnic female children have expanded as a result of introduction of multi-lingual curriculum.

Impact on Climate Change: There is no direct impact on climate change

3.2 Poverty Reduction and Women's Advancement Related Spending

(Taka in Thousands)

| Description | Budget | Projection | | | |
|-------------------|------------|------------|------------|--|--|
| Description | 2019-20 | 2020-21 | 2021-22 | | |
| Poverty Reduction | 1028,50,96 | 1070,90,53 | 1278,76,15 | | |
| Gender | 578,65,96 | 570,54,16 | 548,64,58 | | |
| Climate Change | 62,49,55 | 67,10,68 | 78,17,99 | | |

4.1 Priority Spending Areas/Programmes

| | . Homey openancy rabability and services | |
|----|--|---|
| | Priority Spending Areas/Programmes | Related Strategic Objectives |
| 1. | Development of Infrastructure in CHT areas Because of the geographical condition, the general communication system of CHT areas is not well-functioning as that of the plain regions. A target based and climate friendly communication system among individuals, tribes and regions will bring about socio-economic development. For this reason, the development of infrastructure has been given the highest priority. | Improving quality of life for people of CHT Region |
| 2. | Expansion of agricultural and non-agricultural activities Given the geographical characteristics of the Chattogram Hill Tracts region, growth centres should be established along with the efforts to expand the target-based programmes which ensure overall economic development. Hence, target-based programmes have been given the second highest priority. | |
| 3. | Primary and Technical Education | |
| | With a view to including children of the CHT region in the overall socio- economic development activities of the country, the necessity of expanding primary and technical education has been given priority. | |
| 4. | Basic Health Services: | |
| | Because of the special environmental characteristics in CHT areas, there is a need for providing health services designed to prevent the spread of special types of diseases. Programmes, designed specially to provide health services, particularly for the women and children living in remote and inaccessible areas, have been given priority. | |
| 5. | Conservation of Tribal Culture and Heritage | Safeguarding the language and |
| | Conservation of the cultural originality and mother tongues of different tribal clans living in the CHT areas has been given priority for preserve language and tradition of different tribal people. | culture of different tribes of the people of CHTs |
