- ⇒ While Revised Budget (RB10) of Development Expenditure for the FY10 was 6.4% less than the original budget (B10) and A10 was 12.9% less than RB10, B11 was 53.5% higher than A10 but 33.7% higher than RB10.

* The figure is provisional

On annual and monthly basis, there is a big difference between NSD source and CGA source for Non-Bank borrowing. Likewise, for bank borrowing, the difference between the two sources in case of monthly and cumulative figure up to April is also large.

Data generated under the Budgeting Information System still underreports development expenditure and it seems, there is some time lag between actual expenditure and inputting the same in the system. This seems to be true also for Revenue expenditure.
